Re: Fort Richardson construction projects (*consultation number 2002-0121*)

Dear Mr. Snodgrass,

On April 16, 2002 we received your request for information concerning federally protected species and or critical habitat that may be impact by the proposed construction activities at Fort Richardson associated with transformation to an Intermediate Brigade Combat Team.

✱ Our records indicate that there are no federally listed or proposed species and/or designated or proposed critical habitat within the action area of the proposed project. In view of this, requirements of section 7 of the Act have been satisfied. However, obligations under section 7 of the Act must be reconsidered if new information reveals project impacts that may affect listed species or critical habitat in a manner not previously considered, if this action is subsequently modified in a manner which was not considered in this assessment, or if a new species is listed or critical habitat is determined that may be affected by the identified action.

This letter relates only to federally listed or proposed species and/or designated or proposed critical habitat under our jurisdiction. It does not address species under the jurisdiction of National Marine Fisheries Service, or other legislation or responsibilities under the Fish and Wildlife Coordination Act, Clean Water Act, National Environmental Policy Act, or Bald and Golden Eagle Protection Act.

If you have any questions please contact me at (907) 271-2781. In future correspondences regarding this project please refer to consultation number 2002-0121.

Sincerely,
