

TECHNICAL EXHIBIT M2

ADP SUPPORT REQUIREMENTS

COMPUTERIZED SYSTEM: It shall be the Contractors responsibility to provide an automated system that supports the information transfer between the Government and the Contractor. This system will be used to order work, transfer quality control reports, provide invoices for billing and assist in the transfer other contract documents as required.

COMPUTER REQUIREMENT: The contractor shall provide desktop PC computer systems and portable computer data collection systems as described below, within 21 calendar days of Contract implementation. Maintenance and support of these systems will remain with the Contractor, although they shall be provided to the Government for use during the duration of the Contract. These systems provided to the Government shall be located on Ft. Richardson, and Ft. Wainwright. The Contractor shall provide systems for their own use in the quantities they deem necessary. Contractor shall be responsible for providing, installing, and maintaining the computer systems at the listed locations. The Contractor shall submit the proposed Computerized System equipment and software to the Government for approval. The Contractor Shall provide one upgrade of Computers and software 2 ½ years into the contract. The Government will supply new requirements for computers and software at that time. Upgrade will be negotiated at that time.

COMPUTER EQUIPMENT: Computer systems shall consist of the following equipment, software and all required accessories to provide a completely operational system as listed below:

DESKTOP PC REQUIREMENT: The Contractor shall provide five fully operational independent desktop computer systems as listed below:

- a. IBM PC compatible with:
 - Intel Xeon processor, 2.40 GHZ, 512K Cache
 - 512MB, PC800 ECC RDRAM (2Rimms)
 - Smart Card Reader Keyboard, USB
 - Quadro2Pro, 64MB, VGA/DVI
 - 73GB Ultra 160/M SCSI, I inch (10,000)
 - 3 ½ “ 1.44 Floppy Drive high density disk drive
 - Microsoft Intellimouse USB (2-buton, w/scroll)
 - V.90 PCI Data/Fax Controller less Modem
 - DVD 10x
 - 24X/10X/40X CD Read-Writer
 - 250MB IOMEGA Internal Zip Drive
 - 5.25IN PCMCIA Card Reader, PCI

b. 20 inch (20.0 inch vis) 2000FP Flat Panel Monitor

c. Installed software shall be the latest version of: MICROSOFT WINDOWS 2000 professional, (service pack 2) and MICROSOFT OFFICE 2000 pro. The Contractor shall provide all required telecommunication software for each desktop computer as required for the individual Installations. Contractor shall provide to the Government all manuals and program disks for all the above software.

d One PC shall be set up to function as a File Server for the system and shall have twice the hard drive capacity. This File Server shall be as listed below:

- Intel Xeon processor, 2.4 GHZ, 512K Cache
- 2nd Intel Xeon processor, 2.4 GHZ (must match speed selection above), 512K Cache
- * 1GB, PC800 ECC RDRAM
- Smart Card Reader Keyboard, USB
- Quadro2Pro, 64MB, VGA/DVI
- 2 - 73GB Ultra 160/M SCSI, I inch (10,000)
- 3 ½ “ 1.44 Floppy Drive high density disk drive
- Microsoft Intellimouse USB (2-button, w/scroll)
- V.90 PCI Data/Fax Controller less Modem
- * DVD 10x
- 24X/10X/40X CD Read-Writer
- 250MB IOMEGA Internal Zip Drive
- 5.25IN PCMCIA Card Reader, PCI

This File Server shall be provided with an uninterruptible power supply.

e. Installed software shall be the latest version of: MICROSOFT WINDOWS 2000 professional, (service pack 2) and MICROSOFT OFFICE 2000 pro. The Contractor shall provide all required telecommunication software for each desktop computer as required for the individual Installations. Contractor shall provide to the Government all manuals and program disks for all the above software.

Computer shall be comparable to the Dell Precision Workstation 530

* PRINTERS: The Contractor shall provide fully operational printer system as listed below

- * 2 – Xerox Phaser 6200DX w/ 10/100 network interface
16ppm Blk,
16ppm Color, 256 MB Ram

Upon completion of this Contract the Government shall retain ownership of computer and all rights and license for use of Computer Software.
